

From the published paper:

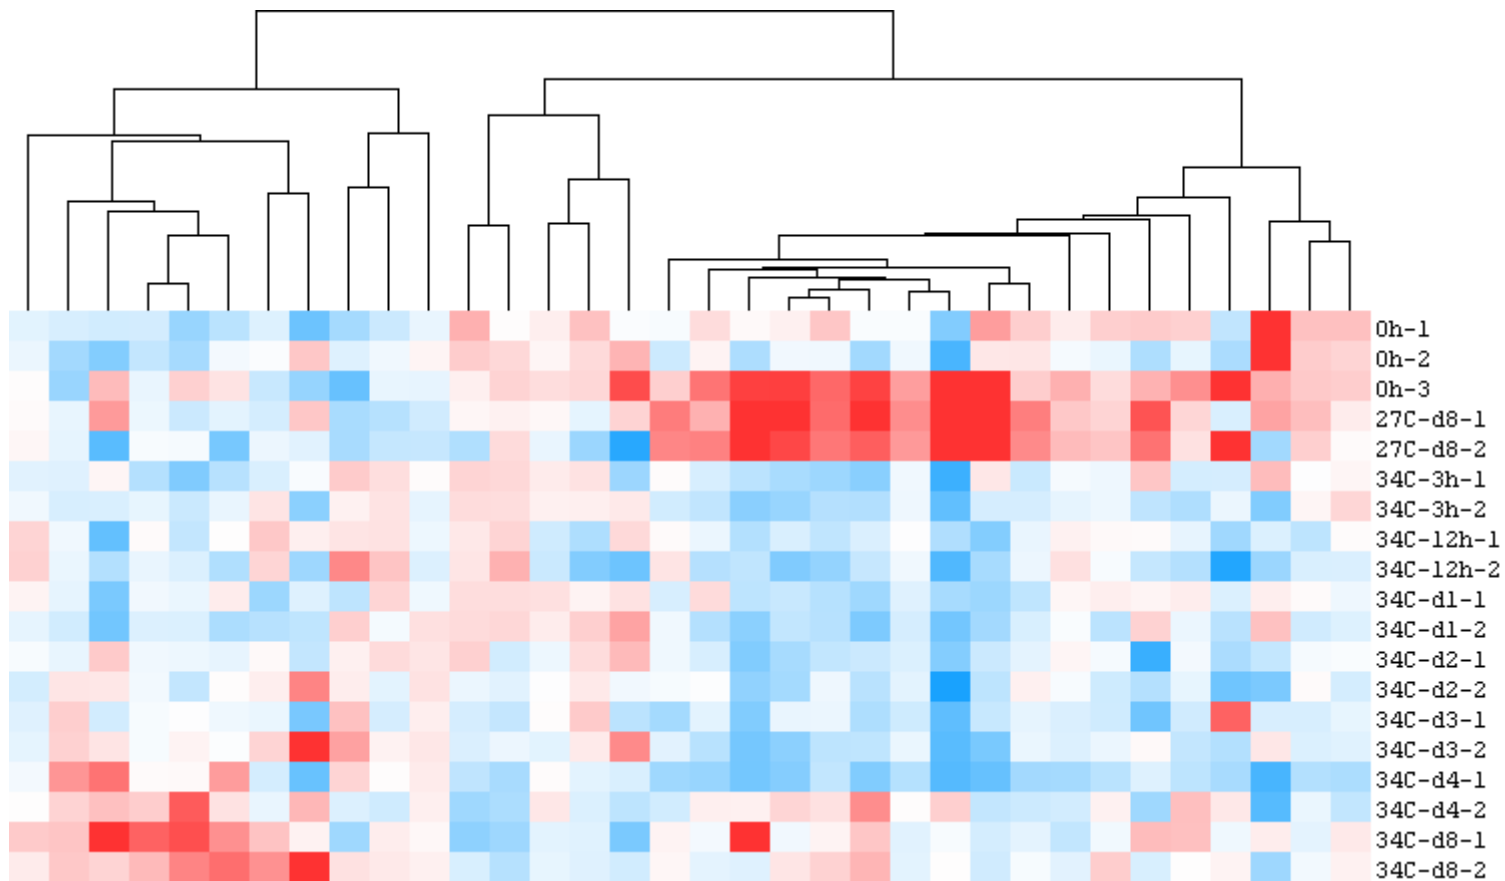

Split DNMTs into 4 groups:

- LINE-DNMTs
- DIRS-DNMTs
- other_domain_DNMTs
- DNMTs with no other annotated domains

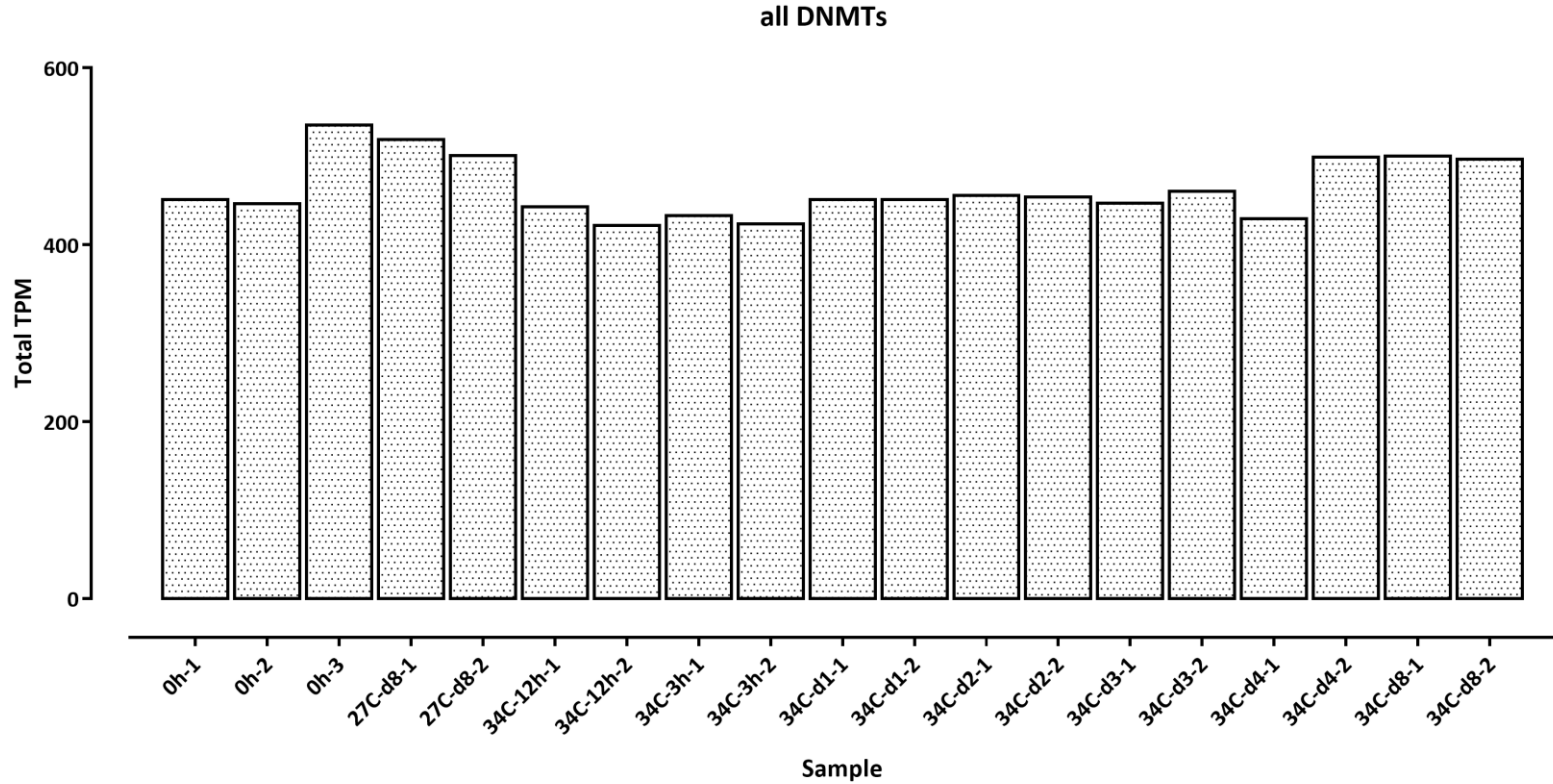

others, >1TPM in at least one sample

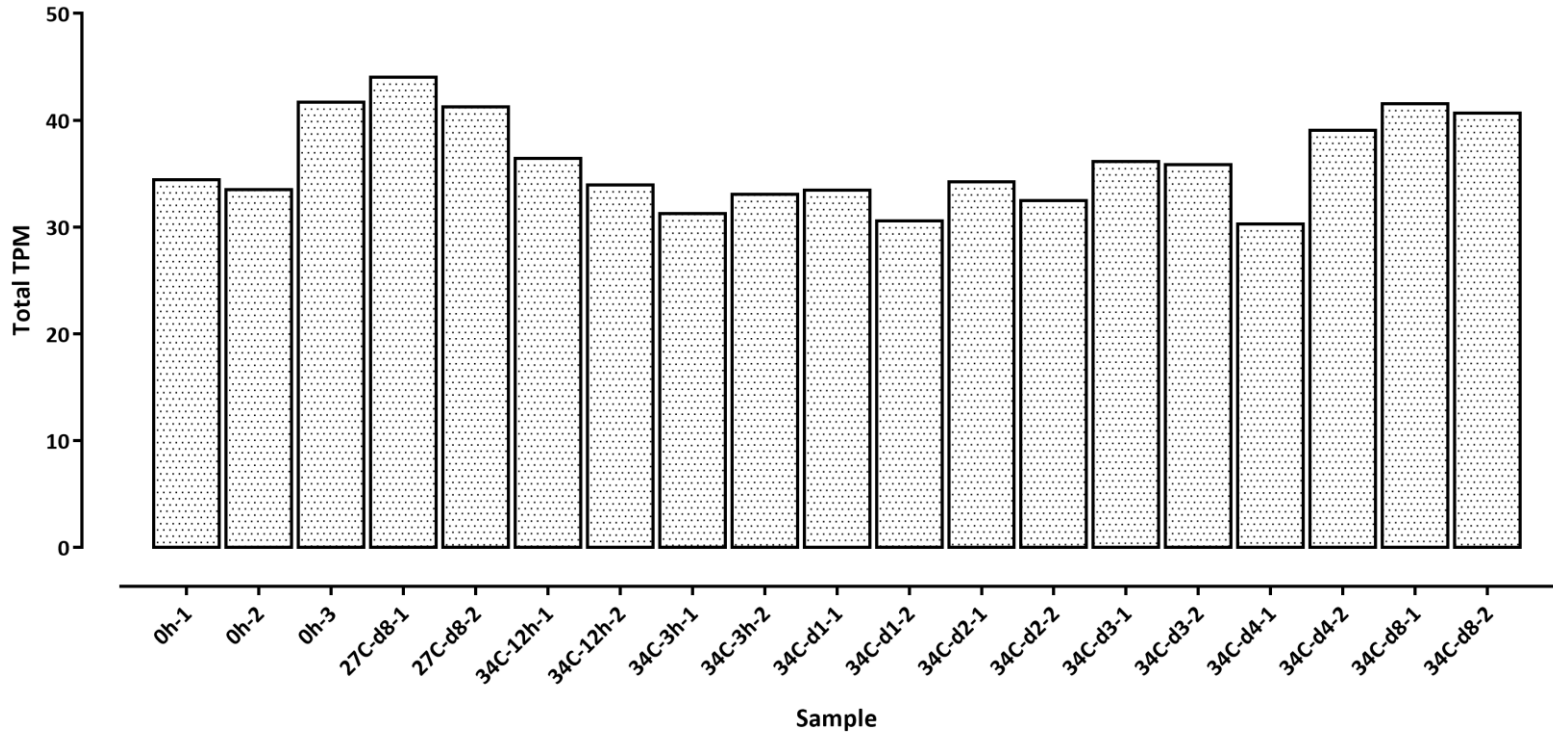

no other domain, >1TPM in at least one sample

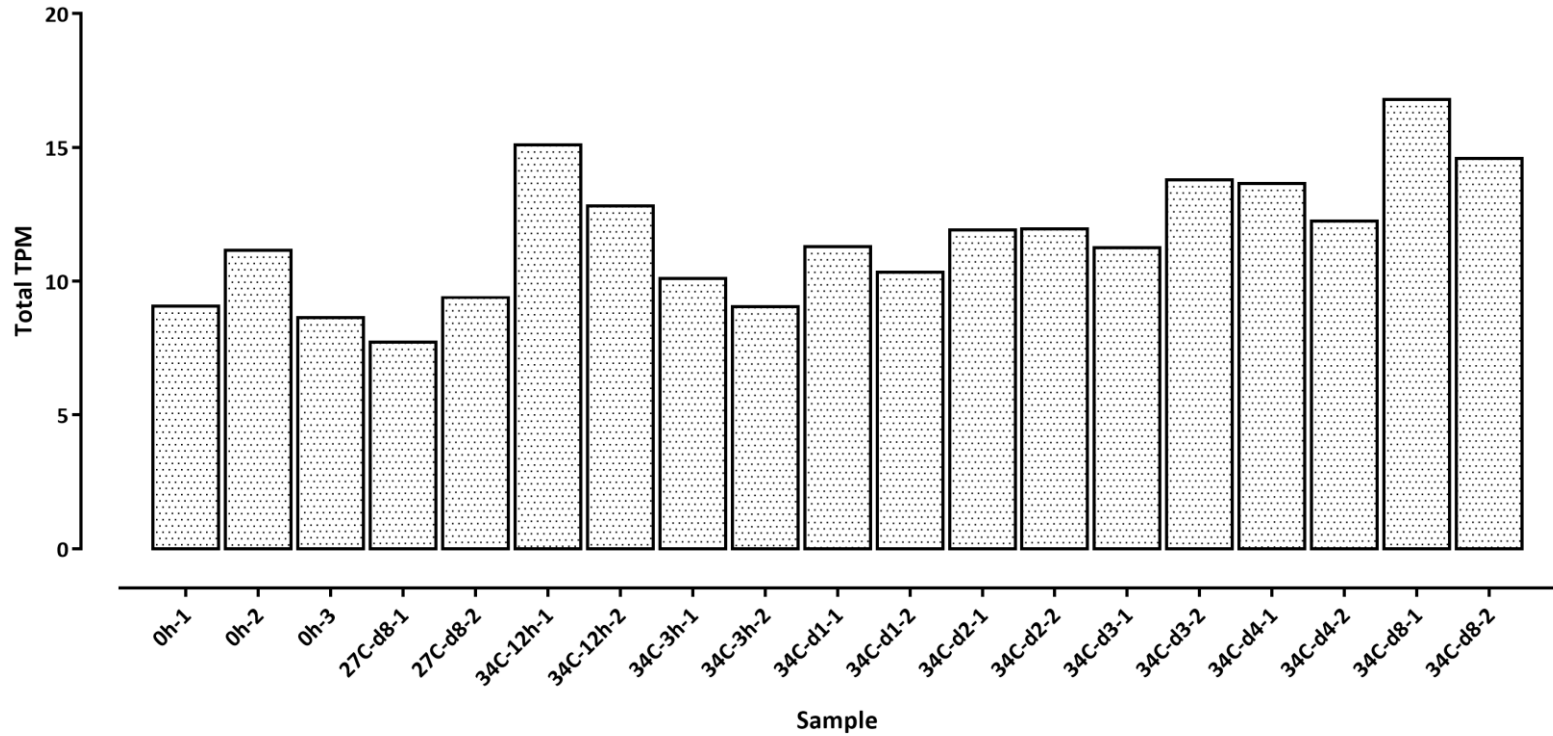

Expression change over all DNMTs

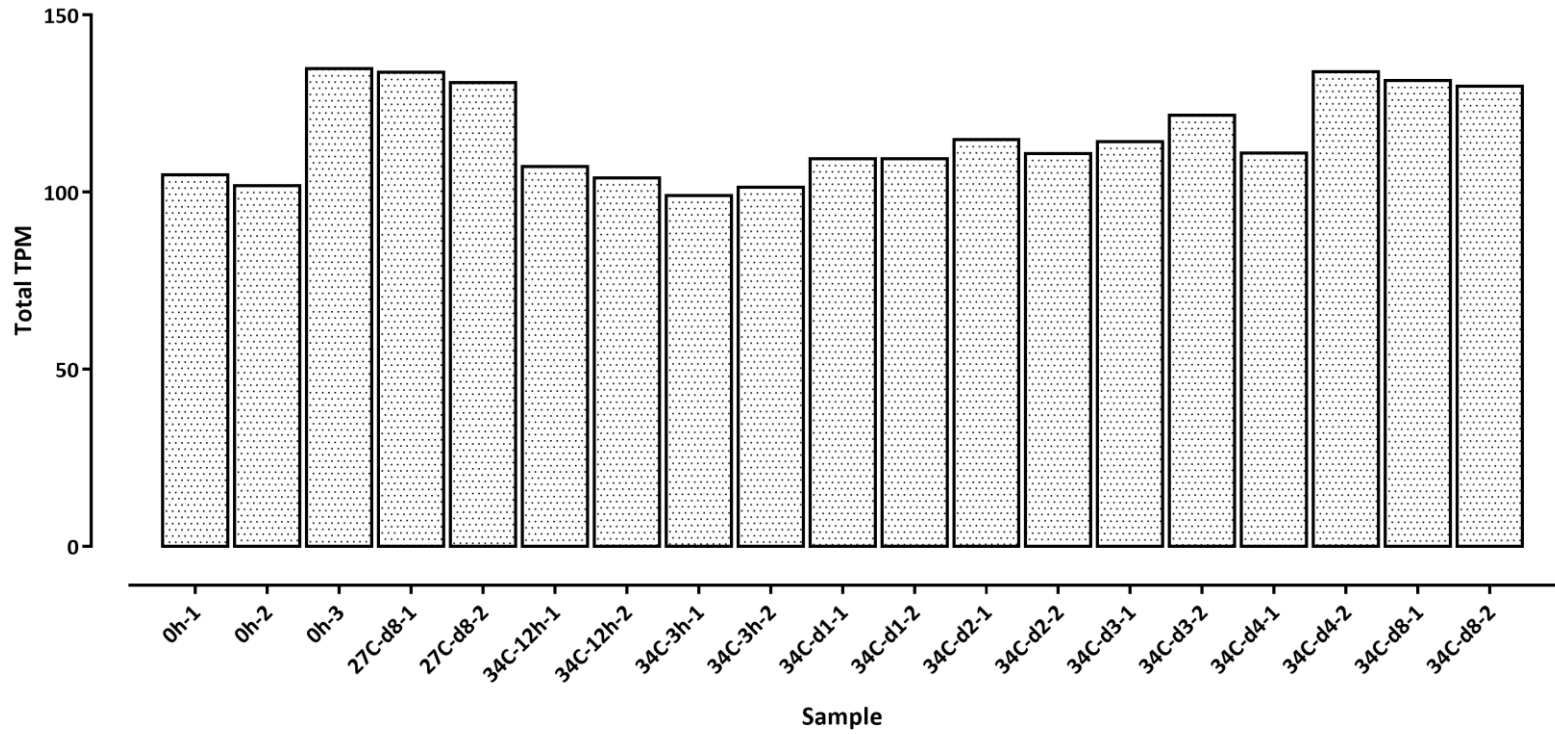

DIRS DNMTs

LINE DNMTs

other DNMTs

no additional domain DNMTs
